

[illegible]

Bramwell, of Barrow Hills, Chorley; a
 Lonsdale, eldest daughter of Thomas Bramwell,
 M.D., F.R.C.P., of Grosvenor Street, 11; a
 rather difficult to think of that way and that
 brother, Bramwell, settling down as a
 Benedict, but he is caught at last. The other
 service is not behind, for we see that among
 other couples who are to start on a life
 together, Commander Sir Robert Arbuthnot
 B.A., formerly H.M.S. Commander, and his
 daughter of Colonel A. C. Mansley, O.C.
 Seaforth Highlanders, and Mrs. Mansley,
 formerly of the Palace, London.

MENTS FOR OHINA.
 The German cruisers, going to China, will probably take extra complements of marines.
ANOTHER GALE ON THE BRITISH COAST.
 Another gale has occurred on the British coast and the life boat at Margate has capsize, drowning nine of the crew.
THE RIOTS IN BOHEMIA.
 Martial law has been proclaimed at Prague, and the garrison largely reinforced.

3007 NEWSPAPERS, BATHING, MAGNIVEN & CAMERON'S PENS
 THE WARELEY PEN, for Easy Writing.
 THE FLYING SCOTSMAN PEN, issued at a Quill.
 THE FLYING J writes 200 words per day.

No. 1 Stop—Which we will now be able to work to advantage.

No. 2 Stop.—The lode has increased in size. It is now about 12 ft. wide of solid ore, which contains fair quantities of gold.

No. 3 Stop.—The lode still continues about 12 ft. wide of nice solid ore in which good gold can be freely seen. The lode ought to put out a few tons of ore.

No. 4 Stop.—There is no change here, the lode continues about 5 ft. wide of fairly good ore.

No. 5 Stop.—As we are now able to work very good ore, we have decided to stop here.

Therefore, he thought, to run a Bill through well making the change. By this method, secondary amendments and surgery would not be required. They had got to trust surgery, and the only person they must trust was Governor. Let the Legislative Council pass a Bill giving the Governor no Council power to introduce the new standard oil, in his opinion, the most favorable time. This was good then to make, when the occasion suitable, by means of an Order in Council. The bill should be passed by the Council, and the bill should then be fixed with the Governor's assent. The Governor's assent was the only thing that was necessary.

and in vases like conchas. When powdered, it is capable of producing a great amount of heat. The few millions pot makes it difficult for fire, but this difficulty has been largely overcome and a valuable fuel produced—by mixing it with infusorial earth, which is found in some locality.

Gum copal, for rendering asbestos, paper, etc., flameable and proof against noise and grates, is made by dissolving copaloids in alcohol. On applying, the alcohol is driven off.
